

Statement for Sex Education

No formal sex education is given. However, the school aims to answer children's questions honestly and sensitively and appropriately for their age.

- By creating opportunities for children to become aware of their own bodies- discussing the similarities and differences.
- By developing children's acceptance of their own bodies and respect for the bodies of others.
- Through understanding life cycles of animals and plants.

Date of statement: November 2019

Date for review- November 2022
